

NORTH ANDOVER PROPOSED WIRELESS BYLAW

The town of North Andover is considering making changes to its Wireless Service Facilities Bylaw. On this page, you will see a link to a draft of the proposed bylaw language as well as a link to the proposed Wireless Overlay Map. The proposed Bylaw will create a “Wireless Overlay District”, which consists of specific parcels located throughout the town. Applicants will be required to site their facilities within these designated parcels. A variance will be required if the applicant wishes to locate a facility outside of the designated zone.

A draft of the map can be accessed through the link listed below. All of the “colored” parcels, as indicated by the legend, are included in the proposed overlay district.

Copies of both the proposed bylaw language and the map are also available at the Town of North Andover Community Development Office at 1600 Osgood St., Suite 2-36
